CALENDAR

Effective Fall Term, 1999, all curricula are based upon a semester calendar with three terms per calendar year. From September, 1946, through Summer Term, 1999, the Institute was on the quarter system.

GRADE POINT AVERAGE

The scholastic average is computed by dividing the quality points earned by the number of credit hours scheduled in which a final grade of A, B, C, D, F, or P has been recorded.

In the case of repeated courses, all grades earned are calculated into the grade point average.

In the case of repeated courses, all grades earned are calculated into the grade point average.

For Fall Term, 1999, all instances of an individual course, including those associated with repeated and remedial courses, were counted in the total number of earned hours. Effective Fall Term, 1999, earned hours from repeated courses and remedial courses (those numbered below 1000) will not be included in the earned hours total.

TRANSFER CREDIT

In general, a grade of "C" or better is required before transfer credit is awarded. Courses transferred from another institution are recorded as equivalent Georgia Tech courses and the grades are not recorded. Transcripts of work completed at other institutions must be received

COURSE NUMBERING SYSTEM

Course numbers below 1000 denote remedial courses and may not be used in satisfying degree requirements. Course numbers below 3000 denote lower division (freshman and sophomore) courses. Those numbered 3000-4999 denote upper division (junior and senior) courses, open to students of the upper and lower divisions with the proper prerequisites and to graduate students on approval of the individual student's major school.

Courses designed for graduate students are numbered 6000 and above. An upper division undergraduate student who has an overall average of 2.70 or higher may enroll in a graduate level course with the approval of the student's major school and the dean of the graduate division.
